Description

Important chest of drawers - English secretary from the Georgian period with three large drawers. The upper part simulating two drawers is made of a flap which forms the work table covered with sheepskin leather and reveals the secretarial part, composed of a series of drawers and letter holders with in its center a small cabinet, on the door of which is inlaid a brass plaque or and inscribed the name of the owner of the secretary "JL Beech" as well as its date of production. The mahogany veneer chest of drawers is decorated with marquetry fillets. England - early 19th century.
