Description

A series of 6 table settings, i.e. 6 forks and 6 soup spoons, in solid silver,
Controlled by the general farmers (i.e. 950/1000),
Certainly from ORLÉANS CIRCA 1741
And certainly the goldsmith BOUQUIN GEORGE
I put the conditional because the hallmarks are used
They are in good condition for their age
Certainly some wear but it is quite rare
Especially a series of 2 times 6 two initials are engraved (ID) in the middle of a cartridge
Where it is quite difficult to distinguish on certain pieces the round tips of a count's crown...
Weight...823 gr
