Depth : 1,90 cm

### Description

Leverback earrings in 750/°° yellow gold (18 KT, owl hallmark) with a typically Art Nouveau theme and curves....a plant element, like a vine, winds around in a figure eight, on several planes. This movement creates a dynamic within the jewel, and constitutes the base of a delicate stem supporting a blue enameled flower, enhanced in its center with an opal cabochon. This flower is decorated with a green enamelled leaf. The corolla of the flower, in two parts, is finely made. This jewel offers the dynamics as well as the delicacy, the realism as well as the lyricism specific to Art Nouveau creations. The use of enamel and opals are also very characteristic. The sleeper systems are swan necks, designed to be passed through the front of the ear and therefore easy to handle. Total gross weight: 9.76 g
