Marie Vergne, paints, exhibits and delights us for more than thirty years... Some who have become friends love her and follow her since her beginnings, others will now be able to enter in his sweet and special universe, his "hymn to life, happiness and colors". Since she was a little girl, Marie has been inspired by living things, by simple and true life...: "My painting is figurative, I start from reality to move towards dreams and I attach enormous importance to details".
