Description

Superb and large mahogany bookcase on oak backgrounds, it has three glass doors in the upper part and three glass doors in the lower part separated by three zippers for resting the books. Of great finesse due to the quality of the gilded bronzes but also the quality and depth of the mahogany, all aspects of this piece of furniture reach heights of excellence and finesse. Entirely original, it has been varnished with a buffer, the windows also date from the time of manufacture of the library as well as keys and locks. From the mid-19th century or the beginning of the first third of the 19th century, it could be attributable to Linke. Visible in Bordeaux
