Description

We present this pair of German porcelain candlesticks probably from Meissen, with no mark indicated, they are in dream condition. These candle holders each represent a putto holding a bouquet of flowers in one hand and a candlestick in the other hand, they are each seated on a shell-shaped seat and at the back there is a grip to be able to move one room to another, there is a flat flower to rest the thumb on. Two marvels indisputably. (E24) Ref. .....YB 113
