Description

Antique Lombard coin cabinet datable to the 17th/18th century.

Front scanned by walnut drawers with guilloché worked frames, central niche with mirrored walls and chequered inlaid base.

Sides threaded on the solid wood, while on the upper part a threaded top was placed later on the cornice (originally it had no top) probably to avoid seeing the rough wood if the cabinet was placed not high enough.

88x27h43

Resting on a coeval but later matching table, top in solid walnut with sloping goat-like column legs. Including the table the total price is EUR 2500, the request of EUR 1900 refers to the coin
