### Description

Beautiful portrait of a poet, oil painting on canvas. The poet's face is portrayed with great realism, with attention to the details of the expressions and facial features. He wears typical clothes of the era, which give a classic elegance to the character. The poet addresses the viewer directly with an intense gaze, while holding a piece of paper with a poem in his hand, highlighting his passion for writing. The painting is framed in a period wooden frame carved and gilded with pure gold leaf, which adds a touch of pomp and refinement to the work. The frame is well preserved, as is the painting itself, which is in excellent condition. The Italian painter of this artwork is not identified, but his style is typical of the Napoleon III period, dating back to the second half of the 19th century.
