

## Huting Table Regency Period XVIIIth Century In Molded And Carved, France

3 000 EUR

Period : 18th century

Condition : Bon état

Material : Walnut

Length : 146 cm

Width : 72 cm

Height : 79 cm

### Description

Provencial Hunting Table Regency Period XVIIIth in natural wood Richly Carved on its three sides.

This table can also be used as a console.

The molded top is later from the 19th century, it is in wood painted in faux marble style veined in Griotte color because I think the original marble must have disappeared.

Legs and crosspieces are richly molded and sculpted with decorations of shells, foliage, acanthus and scrolls. The legs and crosspieces are doweled, this Table is in good condition, with its natural wear and tear over time.
