Large Flemish Polychrome Corpus Christi 16th Century

1 650 EUR

Period : 16th century

Condition : Très bon état

Material : Painted wood

Description

Beautiful and large polychrome corpus christi of crucified sacristy, its cross is missing The arms in the air and the head falling slightly to the side The curved legs are held by a single nail piercing the 2 feet. The Perizonium is simply held in place by a cord revealing the great thinness of its pelvis. Very good state of conservation. Note: a polychromy redone in the 19th Century revealing the original Flemish blue in places Missing the Perizonium knot Old collage on the left hand. Height from arm to foot: 62.5 cm Height from head to foot: 54.5 cm
