Description

A frame with...
A cotton fresco and certainly with other qualities of fabric, I am not a specialist...!
With juxtaposed colors with openwork parts and others sewn...
In several thicknesses...
Without being too thick...
It's fresh and very lively...
From the year 1964...
From PANAMA. ..
I took it apart to clean it...
The theme seems familiar to me without being able to put a name...
In good condition except for the frame which has imperfections...
I took a photo of it from all directions , there will be one that you like more...
