

English Case Pendulum With Moon Phase To Be Restored

780 EUR

Period : 19th century

Condition : A restaurer

Material : Mahogany

Width : 57

Height : 223

Depth : 26

Description

Very beautiful box clock with movement performing the phases of the moon in mahogany with some lack of veneer. Movement to be revised, bell to be refixed and put back an axis at the top of the balance which is very heavy.
