Description

Africa: "Small Batammaliba shield", round basketwork shield, diameter 35 cm with a height of 15 cm, Togo or Benin. Circa 1900/1920. Thanks to the precious book on shields from the Barbier-Mueller Collection, I found the origin of this spectacular shield. If I am not very fond of weapons, I like the shields that I buy regularly, their incredible variety making them a superb collection theme and magnificent decorative objects... Other photos and many other objects in our stores in Pau and Biarritz and on our site: galerielhoste.com.
