Fluted Column In Green Marble, Rotating Base, Early 20th Century

1 200 EUR

Period : 20th century

Condition : Bon état

Material : Marble

Description

Very elegant fluted column in green marble, Louis XVI style, early 20th century. The square-shaped top pivots on a metal axis, which allows the top to rotate 360" to be able to present a sculpture for example. The whole thing is in good condition, I would like to point out a small hole blocked with plaster in the center of the top which is surely original. Dimensions to come...
