Description

A patinated cast bronze sculpture...
From the 1970s/80s...
I think it comes from FRENCH...
In good general condition with manufacturing imperfections (cracks and small holes, wear or lack of patina)...
It is hollowed out inside which is a sign of careful manufacturing despite the defects (defects if there are any...?!) In its juice...
Without gravity...
I could make it perfect, I I have a restorer, but this is perhaps denigrating the work of the artist...
A great, very artistic subject...
Unsigned...
Weight...3 kilos 47 gr
