Description

Porcelain vase from the late 19th century Napoleon III period by a Limoges factory with a monogram signature. Very beautiful vase decorated with a lake landscape with a bouquet of flowers in the foreground of high quality signed by the decorative artist A Golse in the decor. Golse et fils were decorators in Limoges and had filed a patent in 1884 for relief enamels. Here we have a magnificent example of this work with a fine gold background with a decoration of golden foliage in relief of the most beautiful effect. Note the use with great finesse of two tones of matte and shiny gold on the collar and a very original part of silver leaf on the pedestal. Excellent condition of structure and decoration for this museum quality vase. Possibility of sending in France and throughout the world by professional
