Description

Mirror from the 18th century and Regency period in carved and gilded wood with gold leaf and beads. Very interesting mirror in very good original condition with a very dynamic sculpture highlighting these different volumes. Note the slightly asymmetrical character of the pediment, a sign of belonging to a house of quality people. In addition, note the presence of three fleur-de-lys coats of arms in the center of the pediment. Very good size, ideal for a chest of drawers or console top in an 18th century or contemporary interior. Frame dimensions 86 by 61 cm. Possibility of sending to France by professional carrier. Gilding in very good original condition, never restored.
