Description

Christofle France. Set of twelve oyster forks in silver metal, Spatours model. ** Length: 14.8 cm
Original box, instructions Condition: excellent / new or close to new / **Drawing its aesthetic inspiration from the 18th century, the Spatours cutlery collection appears in the first Christofle catalog in 1862. Its name is the contraction of the word "spatula" and the word "contour". It quite directly evokes the design of this model which features sinuous lines emphasizing the curve of the cutlery. The sobriety and harmony of the models in this collection allow it to span the ages / Catalog of the Christofle house /
