Depth : 14 cm

Description

We are proud to present a vintage clock from the 19th century, a remarkable example of the craftsmanship of this period.

This exquisite timepiece is crafted from finely crafted wood, accented with brass and bronze, which give it a timeless shine. Its dimensions are 48cm in height, 24cm in width and 14cm in depth, making it a statement piece that is both elegant and imposing. Twisted ebonized wood columns support the brass-framed dial, and the structure bears carefully chiseled bronze details, providing a striking visual contrast.

This clock is not just a time measuring device but a piece of art that will capture attention in any collection or interior.
