Description

Free-form danish coffee table in light varnished wood, stamped Jese Mobel 3161 on the back of the table top Two small round marks on the top of the table like a defect in the wood. The cutout of the board is reminiscent of that of a surfboard. Beautiful finishes, sophisticated base, it recalls American interiors from the 1950s. Beech, ash, maple or maybe sycamore I wouldn't know which to choose.
