Grisaille Stained Glass Window

1 500 EUR

Period : 17th century

Condition : Parfait état

Material : Glass

Diameter : 27 cm

Description

We present this circular-shaped stained glass window set in a (normal) lead surround. We believe it to be from the 17th century and it was developed after a painting depicting people roaming mountain areas and hunting animals. Not being a stained glass specialist, I leave you the right to judge, it seems that there is something written on the front under the dog. Weight 600 gr (E24)
