Description

Nice tool for an arquebus, four-function multiple wrench, 3 different screwdrivers, and on centre probably, the cutout for a rotary adjustment knob.
Unfortunately, I do not have the weapon that this tool was intended to be used for.
Beautiful gunsmith work, very neat. End of the screwdrivers a little worn in places.
Dimensions = fits into a triangle of 10cm x 9cm.
Rare object, late 17th or early 18th.
