### Description

We present for sale this pretty pair of gilded and chiseled bronze wall lights. In the center a love supports in each hand a branch with a light. These wall lights are in the Louis XVI style, from the time before electricity but then they were very intelligently electrified because the wires were passed through the hollow of the sconces and no holes were drilled to damage these beautiful wall lights. They are at least from the Napoleon III period. (E24) Ref. ....YB 487
