

Jeager-lecoultre Stirrup Clock For Hermès

1 850 EUR

Signature : Jeager-Lecoultre

Period : 20th century

Condition : Très bon état

Material : Leather

Height : 14cm

Description

Superb and rare small desk clock in chrome steel and leather, in the shape of a stirrup. The hours are represented by nails applied in the shape of a horseshoe, the clock is covered in light brown leather, the mechanical winding movement has been completely overhauled. The set is rare, some cunnu model but later bears my mention "HERMES" at the 6 o'clock position. Very good state of conservation of the whole, winder of the mechanical movement under 6 o'clock, power reserve of 8 days. Quality work from the 1940s, elegant and timeless.
