Description

Set of ink block blocks gathered in a period box from the end of the 19th century to the beginning of the 20th century, origin in China. Very interesting, very rare object bringing together a beautiful set decorated in mass in high relief and gilded. These very high quality blocks were reserved for an elite of scholars who used them for calligraphy by using this bread on an ink piece, mixing it with water. A true ascetic ritual with its procession of objects transmitted almost religiously from generation to generation. These ink blocks are surely one of the rarest and most perishable elements of these sets. Very beautiful decorative effect and very interesting collector's item. Possibility of sending in France and throughout the world by secure and insured package. Invoice and certificate provided.
