

Important Art Deco Bronze Sculpture, By Jean Verschneider

5 600 EUR

Period : 20th century

Condition : Bon état

Material : Bronze

Width : 75 cm

Height : 56 cm

Depth : 31 cm

Description

Rare and important large bronze with a green patina with brown nuances representing a young man pulling his chimpanzee by the arm so that it does not grab the two banana hands placed on the ground.

A dynamic sculpture with these two opposing forces, accentuated by the diagonal composition.

This is definitely one of my favorite sculptures !

Patina altered in certain places following repeated rubbing over nearly a century, otherwise in good general condition.

Signed on the terrace "Jean Verschneider" and foundry stamp "Les Neveux de Jules Lehmann à Paris" on the edge.

Old cast iron of excellent quality.

France, circa 1925.
