### Description

#### WHAT DOES THIS LION'S HEAD

CONCEAL? Heavy little cast iron box Heavy with history.... It is a Dutch tobacco box from the 17, 18, 19th century (unknown period) The grated tobacco was kept there, protected from light and well closed, the mixture retained its humidity. Well, today, we would rather keep something else there, why not??? but not in your pocket, it's too heavy...
