Description

As men have never stopped moving, the necessities carried were related to the purpose of the trip, the place, the time and the crew; Bringing your lighting was essential but the weight and space were important: here, yew wood was chosen for its hardness, its beautiful color and the polish it allowed during filming; Easily retractable by screwing, the four pieces of the set constitute a small volume that is easily transportable and solid at the same time. Only recognizable sign: The number 5 is written on the central threads of one of the cups. Skillful turner's work from the 19th century in good condition.
