Description

These seats have straw seats in excellent condition, surrounded by a frame. The kneeling feet at the front are connected at the front by a rectangular crosspiece. On the sides and back we find bars. The two rear legs are "saber" shaped towards the outside and move in the back part where they end in a butt. The high, curved and softened crosspiece takes on a curved shape. These lightweight chairs take up little space with very good seating. ********* Period: 1st part 19th Century Perfect condition after restoration in our workshop.
