

We Always Need A Forester's Compass At Home

185 EUR

Period : 19th century

Condition : Très bon état

Material : Solid wood

Length : 13 cm

Width : 63 cm

Description

But what is this superb lumberjack tool doing here, teasing you, so that you can "diameter" your trees??? Given its venerable age, it would well deserve a nice retirement in a popular art museum.... like a caliper, we measured the diameter of the logs one meter from the ground...
