Description

Pretty and rare fish bowl by Amalric WALTER in Nancy. A very beautiful model for this bowl in real turquoise blue and green glass paste. A fish and its fry flush with the surface of the water swim in a squadron. We can see ripples caused by the swirls of the fish. The colors are really beautiful. This model is clearly referenced, see the last two photos of model parts offered in the auction room. Note that an identical piece is on offer in the auction room on May 16 (SEE LAST PHOTO), estimated at 3300-4300 euros, to which must be added 30% auction fees. Piece signed "AWalter Nancy" and "HBergé sc" because it is based on a drawing by Henri Bergé, artistic director at Daum. Perfect condition, circa 1920, diameter of 15 cm Rare piece, with beautiful colors and very fine!
