

Business Card Viewer

1 250 EUR

Period : 19th century

Condition : Très bon état

Material : Painted wood

Description

Blackened wooden business card viewer with magnifying glass, card presentation and storage mechanism. Napoleon III period Dimensions: 25cm high, 20cm long, 17cm wide. The lid of the box, once raised, reveals the graphoscope which, thanks to its magnifying effect, allows you to view business cards. A wheel allows you to change cards. The blackened wooden business card holder is also cut to enhance the card as if in a frame. The viewer contains around ten business cards.
