

## Duck Dancing On Drum Working Tin Toy 20's

260 EUR

Period : 20th century

Condition : Etat d'usage

Material : Metal

Height : 28 cm

### Description

"Duck dancing on drum" tin toy representing a duck with an umbrella dancing on a drum.

This model was also revived in the 1960s, but this one is much older, probably from the 1920s.

It comes complete with the original box (1 small visible flaw) and the winding key. The spring works, but probably needs to be serviced, because the figure rotates and dances, but tends to block.

To avoid problems I didn't touch it, but probably just lubricate it
