

## Sèvres Porcelain Creamer 1858

1 580 EUR

Signature : Sèvres

Period : 19th century

Condition : En l'etat

Material : Porcelain

Diameter : 15

Height : 14

### Description

Exceptional Sèvres Porcelain Creamer dated 1858, with an agathe blue background. Under cups raised in its center and on the edges to support the gadrooned creamer, the whole is decorated with friezes and arabesques in gold, raised handle and pouring spout. The creamer had a broken side with a museum restoration not visible from the outside and a very slight crack visible inside. Very rare piece I have had it in my collection for 25 years I have never seen any others
