Description

Description:chiseled bronze, ground gold and brown patina.These very beautiful andirons represent the pair of statues adorning the tomb of a Medici (Sculptor: Michelangelo).A strong symbolism is associated with these statues, four in number (the four parts of time). The late Julien de Nemours rests in this tomb. The particularity of these andirons is their positioning on a box base. The original statues are on a broken double-arched pediment, this curved base is for example reproduced in the Barbedienne andirons on the same subject.For our andirons this gives an appearance closer to ornamental statuary.Condition:excellent original condition.Dimensions:43 (height) x 51 (length) x 40 x 18 (base) cm.Réf3280 / 41-50KG - 2 colis de 25kilos chacun / 38000If you would like a video
