Description

Josef JAKUBEZYK is a Polish artist born in 1954 in Poswietnes, Poland. His tapestries reflect a perfectly mastered art, a know-how that combines wools of various thicknesses that the artist chooses in his native Poland, from shepherds he knows well. He dyes them himself and then creates hangings that take us to the middle of the fields, to the foot of the Auvergne volcanoes or to the seaside. We offer for sale this tapestry with its cardboard, acrylic on paper, which represents the model original created by the artist himself. For him, using acrylic means playing with bright colors and giving a lot of character to his paintings.
