Description

Series of 4 straight-backed armchairs, timeless style which has even recently inspired designers like Philippe Starck with his ghost Louis armchair.

These seats are stamped ROULET on the front crossbars, I am leaning towards a production from the end of the 19th century in the style of the 18th.

Walnut wood has a very warm color. Concerning the condition, they are sold as purchased from my customers, small missing and damaged armrest (last photo) and two armrests move a little.
