Description

Pretty patinated bronze sculpture decorated with an antelope hunter by KOWAS. In the purest art-deco style, this pretty group shows the esteem of male musculature. Very stylized, he grabs an antelope's horn, holding a large spear in his other hand. Very graphic, an expression of strength emerges from this hunting scene. The subjects are in dark patinated bronze on a large black marble terrace. Large dimensions: 63 cm in length by 39 cm in height (without the spear), more than 16 kilos Perfect condition, circa 1930. A very beautiful art-deco sculpture which highlights the strength and aesthetics of the male body.
