### Description

Very beautiful Art Deco fish service in silver metal for 12 people with fork and serving knife. All the cutlery is in good condition and has a beautiful shine. We will just note the micro scratches from use. The dimensions are clearly visible in photos 7 and 8. The goldsmith, despite the clarity of the hallmark, has remained unknown to us. The set is presented in two white boxes in very good condition. The sobriety of the lines of the Art Deco decor will give a beautiful air of modernity to your table.
