Description

This candlestick from the mid-18th century is in silvered bronze, the baluster stem rests on a contoured foot, decorated with moldings, and provided with a navel chiseled with stylized leaves. The worn silvering reveals the yellow of the bronze and gives the whole a patina of the most beautiful effect. The electrification is new but the lampshade which was displayed in store is not impeccable. 18th century period. Height without lampshade 25.5 cm, with lampshade 39 cm.
