

2 Overturned Blown Glass Seed Or Fertilizer Pots

100 EUR

Period : 19th century

Condition : Très bon état

Material : Glass

Diameter : 5,5 cm

Height : 14 cm

Description

The particularity of these storage pots for the seeds of the botanists of yesteryear is that we have the impression that they are upside down and that is not false. In fact, the cap lid is at the bottom and this is how the seeds were preserved. Here, we are talking about two pots of Nitrate of Soda with 16% nitrogen, i.e. a nutrient and essential element for the good growth of plants.
