André Lemaitre followed a solitary and secret path, and traced far from fashions, critics and cities, the contours of a vigorous and powerful work, landscapes and still lifes, portraits and bouquets, nudes and rivers, all his His paintings speak of the stubborn quest of a man firmly anchored in reality, in this Norman land where we sink, but where dreams cling to the gallop of the clouds. If the sun sometimes stops at the bend of a bouquet, illuminating a body or a face, it is in a universe dominated by grays and greens that André Lemaitre has displayed his talent, and a fervent melancholy like a character by Maupassant.
