Description

Very pretty pair of cast iron garden basins. Large unidentified model, with stylized decorations.

The pedestals have a square base with a tier decorated with a frieze of palmettes. The bodies of the basins are round, slightly flattened. On the front and back, they are decorated with a flower, decorated with ribbons and acanthus leaves. A frieze of foliage and stylized flowers underlined by a frieze of rectangles adorns the opening. Two handles with acanthus leaves leave the body to join the neck. Beautiful decorative effect: they come from the stairwell of a beautiful property in Normandy. In very good condition, there is no breakage, simply the patina of time spent outdoors. Some additional measurements: diameter of 14.5 in. at the opening, total height (with handles) of 30 in.
