

Very Rare Bronze Representation Of 'baphomet' In An Esoteric Medallion Of The Knights Templar.

9 000 EUR

Period : Before 16th century

Condition : Très bon état

Material : Bronze

Length : cm.7

Width : cm.6

Description

Very rare bronze representation of 'Baphomet' in an esoteric medallion of the Knights Templar. Above the figure of the controversial demon idol is the Holy Cross, and in the mouth a cabochon of red glass paste, which in transparency lights up as if to represent bloodlust. In this spectacular object, we have a concrete confirmation of the sacred-profane bond of the Knights Templar and their occult esotericism hidden in an amulet under their armor.
