Description

Thonet brand baby high chair in curved and stained beech. Thonet is a German-Austrian company from the beginning of the 19th century, still in operation, famous for having invented the bentwood process which has since been copied many times but never equalled. The backrest and seat are caned. Under the seat, part of the old Thonet label is present. This high chair will appeal to lovers of old and original objects and furniture. ***** Period: Early 20th Century
Excellent condition. Varnished finish. Additional photos available by clicking on the following link:
