Description

These vintage 18k white gold doe tooth earrings are a true symbol of spring elegance. Weighing 3.8g each, they measure 2.4cm long and offer a delicate and refined silhouette. Their unique pine cone design captures the essence of nature with a touch of sophistication. The minute details of the teeth contrast harmoniously with the shine of the gold, creating a captivating visual effect. The earrings feature a stud closure, ensuring comfortable and secure wearing. A maker's mark on the back certifies the purity of the 750 thousandths gold, guaranteeing the quality and authenticity of this precious jewel. These earrings are perfect for adding a touch of vintage and spring elegance to any outfit, making them an ideal choice for lovers of rare and exquisite jewelry.
