Description

Pretty Galle vase decorated with abutilons by Galle. Very pretty colors for this entirely acid-etched vase with this rich floral decoration. Abutilon flowers in the shape of bells, slightly pink on a honey background, are found all around the room. Note the elegant shape on a small heel, with this little curved collar. Perfect condition, signed on the side, 16 cm in height and 16.5 cm in diameter. A very pretty 1900 piece, both in shape and color!
