

Living Room Lamp French Glass Star Model

3 000 EUR

Signature : Le Verre Français

Period : 20th century

Condition : Bon état

Material : Glass

Description

Le Verre Français: living room lamp with truncated conical base, lampshade in the shape of a mushroom cap, in multilayer glass with acid-etched decoration, plum color on a gray-white background with pink nuances, wrought iron frame and electrification in working order. Unsigned model because it was certainly manufactured just before 1918 but referenced. Good general condition, no cracks or chips, a very small star hair on the edge of the lampshade (5 mm), traces of rust-colored friction and metal on the lampshade at the three points where it comes to rest on the frame, we observe pitting of the glass at the level of the foot as if the surface had suffered small blows from a grinding wheel. Height 39.2 cm, shade diameter 23.2 cm.
