Description

clear 557 / 5.000 Translation Results Translation Results Saint George on horseback and the dragon. Copper engraving signed on board Albrecht Dürer. In the general catalog of Dürer's prints and their copies and derivatives in the Uffizi Gallery, it appears under number 37. The style of this rare engraving can be linked to the famous knight, death and the devil. Our copy from an old collection is lightly glued onto another, more resistant paper on which an inscription appears in ink. There are also some letters apparently on the same plate in the upper left corner that I don't know the meaning of.
