Description

Very pretty terracotta bust signed and dated August 1, 1910 showing the finesse and detail of the features. His expression is serious, he wears a shirt with a large collar and a distinctive bow.

The eyes are round and expressive with well-defined eyebrows. The hair is short and carefully combed revealing a part on the left side of the head. In profile, the sculpture highlights the contours of the face and the finesse of the ears.

This terracotta bust is a preliminary work to the creation of a sculpture on another material such as marble, bronze or other. I put you the photo of the artist's signature Alphonse Marcel Jacques.
